

**Vision Winter/Summer 2025/26
Virtual Competition**

Welcome to Cheer City virtual competitions.

You will need to register your teams on regchamp for your entry, then submit your filmed routines on regchamp before the deadline set for the event.

The video can be filmed in a gym or suitable area, but videos from previous competitions cannot be used.

When videoing your routine please keep noise to a minimum outside the music being played, try to cover the whole area of the floor and your routine to the best of your ability. Fish eyes can be used for lens to help with this.

Video routines will need to fall within the rules and ages set by Cheer City for all events.

Routines must be filmed between the date of entry and then last day to submit your entry on regchamp.

The routines will be then judged by a panel of judges and scoresheets will be sent out the week before the competition is streamed and you will be given a set time frame to score check your routine, this will be the same as in person competitions.

Timing of each event will depend on the amount of entries but we estimate the streaming to start at 2.00pm on the viewing days with the results and bids will be announced at the end of the streamed video on the set date. We will provide a schedule around 10-14days before the streaming day as per an in person event.

No medals are included for athletes in these events and banners will be posted out after the event to the address on regchamp unless you state otherwise.
